

Oracle Environmental Experts Ltd are passionate about the environment and we believe that we have a responsibility to care for and protect the environment in which we operate. We are fully committed to improving environmental performance across all of our business activities including the continual improvement of the Integrated Management System, ensuring that we do all that is reasonably practicable to minimise the environmental impacts of our operations. Oracle Environmental Experts Ltd recognises our key environmental impacts to be in the areas of:

- Waste generation
- Emissions to air/water
- Raw material use
- Water use
- Energy use
- Transport
- Procurement

We are committed to:

- Reducing our carbon footprint;
- Protecting the environment including prevention of pollution as a result of our activities;
- Fulfilling our compliance objectives from both legal and other sources;
- Adopting high environmental standards in all areas of operation;
- Assessing our organisational activities and identify areas where we can minimise impacts;
- Minimising waste through careful and efficient use of all materials and energy;
- Purchasing sustainable products wherever feasible;
- Publicising our environmental position;
- Training our employees in good environmental practice and encourage employee involvement in environmental action;
- Reducing risks from environmental, health or safety hazards for employees and others in the vicinity of our operations;
- Including environmental and ethical considerations in investment decisions where appropriate;
- Developing practical solutions to environmental problems.
- Continually assessing the environmental impact of all our operations.

This policy has immediate effect and replaces all previous versions. This policy will be reviewed and amended, as necessary.
